

## **Vision Statement for EYFS at Baildon Glen:**

At Baildon Glen, we believe that young children are curious, capable, and full of potential. They have the right to a nurturing environment that supports their emotional, physical, and cognitive development. We aim to achieve this by fostering a safe, stimulating, and inclusive setting where each child can explore, create, and learn at their own pace. Through a strong partnership with parents and a focus on play-based learning both inside and out we promote independence, resilience, and a love for learning that will prepare them for their future educational journey.
